

2017

Insulated Metal Panel Installation Training

Become a Certified Installer
in a High-Demand Product Line

With superior energy efficiencies and aesthetic appeal, demand for Insulated Metal Panels (IMPs) is on the rise. Take advantage of this growing construction trend by mastering the art of application through METL-SPAN's IMP Installation Training.

METL-SPAN's Training is Open to Metal Building Contractors & Erectors – Sign Up, or Contact Us Today to Learn More!

Our two-day course combines classroom lectures with hands-on installation training for IMP Roof, Vertical Wall and Horizontal Wall applications, as well as our Thermalsafe Fire Resistant Wall Panel, enabling you to:

- Identify proper and improper panel applications
- Focus on critical sealant and fastener installation techniques
- Learn how to install roof accessories to avoid damage and leaks
- Get helpful tips to improve the speed and effectiveness of installation
- Troubleshoot roof situations prone to leaks, and learn how to avoid and correct common pitfalls
- Become part of METL-SPAN's national installer database accessed by developers and contractors
- Receive an Installer Certification for the IMP panel profiles covered in the class which stays with you no matter what company you work for and can be used nationwide

2017 SCHEDULE FOR IMP INSTALLER TRAINING:

INSULATED METAL PANEL SYSTEMS*

January 25-26	Prince George, VA	Hampton Inn
February 22-23	Las Vegas, NV	Hampton Inn
March 22-23	Oklahoma City, OK	Home2 Suites
April 19-20	Mattoon, IL	Holiday Inn Express
May 10-11	Prince George, VA	Hampton Inn
June 21-22	Las Vegas, NV	Hampton Inn
July 26-27	Oklahoma City, OK	Home2 Suites
August 23-24	Houston, TX	NCI Training Center
September 27-28	Mattoon, IL	Holiday Inn Express

Certification training includes all of the following IMP Products:

IBL® & CFR® Roof Panels, Concealed Fastener Insulated Wall Panels (Vertical & Horizontal), Fire Resistant Panels

Day 1:	8:00am – 5:00pm	Classroom Session
Day 2:	8:00am – 5:00pm	Hands-On Session

Note: You must attend both the Classroom and Hands-On sessions to complete the courses and be eligible for certification. Registration, application, and fees are required for attendance.

With exception of the Houston location, the classroom portion of the seminar will take place at the hotel. Hands-On portion of the seminar will take place at the manufacturing plant. Houston seminar will be located entirely at the NCI Training Center.

*this program does not cover nor certify installers for cold storage applications
